02/22/2011

This brochure provides information about the qualifications and business practices of EDMP, Inc. If you have any questions about the contents of this brochure, please contact us at 813-960-9600 or juliec@edmpinc.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about EDMP, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 110248.

Item 2 Material Changes

The SEC adopted "Amendments to Form ADV" in July, 2010. This Firm Brochure, dated 02/22/2011, is our new disclosure document prepared according to the SEC's new requirements and rules. As you will see, this document is a narrative that is substantially different in form and content, and includes some new information that we were not previously required to disclose.

After our initial filing of this Brochure, this Item will be used to provide our clients with a summary of new and/or updated information. We will inform you of the revision(s) based on the nature of the updated information.

Consistent with the new rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

Item 18	Financial Information	16

Item 4 Advisory Business

EDMP, Inc. is a SEC-registered investment adviser with its principal place of business located in Florida. EDMP, Inc. began conducting business in 1993.

Listed below are the firm's principal shareholders; i.e., those individuals and/or entities that control 25% or more of this company.

Julie C Carnevale and Charles C Carnevale

EDMP, Inc. offers the following advisory services to our clients:

INDIVIDUAL PORTFOLIO MANAGEMENT

EDMP manages a large cap growth equity product, a mid cap equity growth product, a growth and dividend product and on a limited basis, a balanced product. These products are offered to investors in separately managed accounts.

Our firm provides continuous asset management of client funds. We provide advisory services to individual clients and institutional clients such as pension or profit sharing plans, public plans, trust, estates or charitable organizations and corporations. EDMP will establish the account and manage it based upon the mandate given by the client or consultant. For clients that come directly to EDMP without a consultant, a presentation is provided to review which product is the best fit based on the clients' circumstance. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we may also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary, and on a limited basis, non-discretionary accounts. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations. In certain circumstances we may tailor a portfolio for an individual client.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Once the client's portfolio has been established, we review the composite portfolio continuously, looking for various fundamental factors (i.e. overvaluation, undervaluation, over weighting, cash position, etc.). And, if necessary, rebalance the portfolio based upon the above factors.

Our investment recommendations are limited to our specific products; however, on a limited basis we may advise on the following securities:

- Exchange-listed securities
- Securities traded over-the-counter

- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- United States governmental securities

AMOUNT OF MANAGED ASSETS

As of 12/31/2010, we were actively managing \$203,905,212.00 of clients' assets on a discretionary basis.

Item 5 Fees and Compensation

PORTFOLIO MANAGEMENT SERVICES FEES

Our annual fees for Portfolio Management Services are based upon a percentage of assets under management and are generally 1%. For our services, the fees are paid a quarter in advance, at the following rates, based on the market value of the investment account under our supervision, including cash or its equivalent held for investment. These fees do not include any transaction costs, expenses, custodial fees, etc. charged by the executing broker/dealer. Typically, EDMP management fees are authorized to be deducted from the clients' accounts. However, some clients pay this fee direct via an invoice. Based on certain account guidelines, some fee contracts are payable in arrears.

The annualized fee for Portfolio Management Services is charged as a percentage of assets under management, according to the following schedule:

<u>Assets Under Management</u>	<u>Annual Fee</u>
On First \$1,000,000	1.00%
\$1,000,001 to \$5,000,000	0.90%
\$5,000,001 to \$10,000,000	0.80%
\$10,000,001 to \$20,000,000	0.70%
Negotiable on Balance	

A minimum of \$100,000.00 of assets under management is required for this service for retail clients and \$1,000,000.00 for institutional clients. This account size may be negotiable under certain circumstances. EDMP, Inc. may group certain related client accounts for the purposes

of achieving the minimum account size and determining the annualized fee.

Limited Negotiability of Advisory Fees: Although EDMP, Inc. has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

GENERAL INFORMATION

Termination of the Advisory Relationship: A client agreement may be canceled at any time, by either party, for any reason upon notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period. For accounts that pay in arrears, a final bill is calculated for earned fees and billed accordingly.

Wrap Fee Programs and Separately Managed Account Fees: Clients participating in separately managed account programs may be charged various program fees in addition to the advisory fee charged by our firm. Such fees may include the investment advisory fees of the independent advisers, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, clients pay a single fee for advisory, brokerage and custodial services. Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with clients any separate program fees that may be charged to clients.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

Grandfathering of Minimum Account Requirements: Pre-existing advisory clients are subject to EDMP, Inc.'s minimum account requirements and advisory fees in effect at the time the client entered into the advisory relationship. Therefore, our firm's minimum account requirements may differ among clients.

ERISA Accounts: EDMP, Inc. is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), respectively. As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, EDMP, Inc. may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset EDMP, Inc.'s advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Limited Prepayment of Fees: Under no circumstances do we require or solicit payment of fees in excess of \$1200 more than six months in advance of services rendered.

Item 6 Performance-Based Fees and Side-By-Side Management

PERFORMANCE-BASED FEES

Our firm accepts a performance-based fee from the client, on a limited basis. Such a performance-based fee is calculated based on a share of capital gains on or capital appreciation of the assets of the client. To qualify for a performance-based fee arrangement, a client (or Fund investor, as applicable) must either demonstrate a net worth of at least \$1,500,000 or must have at least \$750,000 under management immediately after entering into a management agreement with us.

Item 7 Types of Clients

EDMP, Inc. provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals
- Pension and profit sharing plans (other than plan participants)
- Charitable organizations
- Corporations or other businesses not listed above
- State or municipal government entities

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Qualitative Analysis. We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk in using qualitative analysis is that our subjective judgment may prove incorrect.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We offer the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Large Cap Growth Portfolio Investment Objective

The EDMP Large Cap Growth portfolio seeks to provide long-term capital appreciation over time, with strict adherence to valuation.

Primary Investment Strategy

The large cap growth portfolio seeks long-term capital appreciation in long-term ownership of high quality growth large cap businesses, with market capitalizations greater than \$3 Billion, purchased only at a very definable "economic value" where each holding has a unique industry driver and is built with the long-term potential for 10-15% earnings growth, putting primary emphasis on valuation, balance sheet quality, cash flows and other internal drivers indicative of profitability.

Smid-cap Growth Portfolio Investment Objective:

The Smid-cap portfolio seeks long-term capital appreciation through investments in small and mid capitalization companies with strict adherence to valuation.

Investment Philosophy

Our investment philosophy is the long-term ownership of high quality growing small-cap and mid-cap businesses, with market capitalizations between \$500 million and \$10 billion, purchased only at a very definable “economic value” where each holding has a unique industry driver and is built with the long-term potential for 15-20% earnings growth, putting primary emphasis on valuation, balance sheet quality, cash flows and other internal drivers indicative of profitability.

Growth & Dividend Income Portfolio Investment Objective

The EDMP, Inc. Growth & Dividend Income portfolio seeks to provide long-term capital appreciation and a growing dividend income stream over time, with strict adherence to valuation.

Primary Investment Strategy

The Growth & Dividend Income portfolio seeks long-term capital appreciation and a growing dividend income stream over time. The portfolio is focused on growing dividend income and capital appreciation consistent with above average earnings growth. Our primary objective is to create a diversified portfolio of industry leading, blue chip, mostly multinational companies, offering an increasing yield on cost, which we call growth yield. Additionally, we screen for companies with consistent above average earnings growth and a long legacy of increasing their dividends proportionately. Most importantly, we are disciplined to only invest when valuation makes sound economic sense based on widely accepted formulas for determining the fundamental value of a company.

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or

prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Clients should be aware that the receipt of additional compensation by EDMP, Inc. and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making advisory recommendations. EDMP, Inc. endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we disclose to clients that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm's management conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
- we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

EDMP, Inc. and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of

Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

EDMP, Inc.'s Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to juliec@edmpinc.com, or by calling us at 813-960-9600.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

Item 12 Brokerage Practices

For discretionary clients, EDMP, Inc. may recommend to a client a broker dealer to use and the commission costs that will be charged to these clients for these transactions.

These clients may include any limitations on this discretionary authority. Clients may change/amend these limitations as required. Such amendments must be provided to us in writing.

EDMP, Inc. does not have any soft-dollar arrangements and does not receive any soft-dollar benefits.

EDMP, Inc. will block trades where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple client accounts, so long as transaction costs are shared equally and on a pro-rated

basis between all accounts included in any such block.

Block trading may allow us to execute equity trades in a timelier, more equitable manner, at an average share price. EDMP, Inc. will typically aggregate trades among clients whose accounts can be traded at a given broker, and generally will rotate or vary the order of brokers through which it places trades for clients on any particular day. EDMP, Inc.'s block trading policy and procedures are as follows:

- 1) Transactions for any client account may not be aggregated for execution if the practice is prohibited by or inconsistent with the client's advisory agreement with EDMP, Inc., or our firm's order allocation policy.
- 2) The portfolio manager must determine that the purchase or sale of the particular security involved is appropriate for the client and consistent with the client's investment objectives and with any investment guidelines or restrictions applicable to the client's account.
- 3) The portfolio manager must reasonably believe that the order aggregation will benefit, and will enable EDMP, Inc. to seek best execution for each client participating in the aggregated order. This requires a good faith judgment at the time the order is placed for the execution. It does not mean that the determination made in advance of the transaction must always prove to have been correct in the light of a "20-20 hindsight" perspective. Best execution includes the duty to seek the best quality of execution, as well as the best net price.
- 4) Prior to entry of an aggregated order, a written order ticket must be completed which identifies each client account participating in the order and the proposed allocation of the order, upon completion, to those clients.
- 5) If the order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated pro rata, when possible, among all of the participating client accounts in accordance with the initial order ticket or other written statement of allocation. However, adjustments to this allocation may be made to participating client accounts in accordance with the initial order ticket or other written statement of allocation. Furthermore, adjustments to this pro rata allocation may be made on a best fit basis to avoid having small or odd amounts of shares held in any client account, or to avoid excessive ticket charges in smaller accounts.
- 6) Generally, each client that participates in the aggregated order must do so at the average price for all separate transactions. The commissions charged are account specific and are under the client's agreement with the custodian/broker. Transaction costs may be based on the number of shares traded for each client.
- 7) If the order will be allocated in a manner other than that stated in the initial statement of allocation, a review of a change must be approved by the Chief Compliance Officer no later than the morning following the execution of the aggregate trade.
- 8) EDMP, Inc.'s client account records separately reflect, for each account in which the aggregated transaction occurred, the securities which are held by, and bought and sold for, that account.

9) Funds and securities for aggregated orders are clearly identified on EDMP, Inc.'s records and to the broker-dealers or other intermediaries handling the transactions, by the appropriate account numbers for each participating client.

10) No client or account will be favored over another.

EDMP, Inc. may *recommend* that clients establish brokerage accounts with the Schwab Institutional division of Charles Schwab & Co., Inc. ("Schwab"), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. Although we recommend that clients establish accounts at Schwab, it is the client's decision to custody assets with Schwab. EDMP, Inc. is independently owned and operated and not affiliated with Schwab.

Schwab provides EDMP, Inc. with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Schwab Institutional. These services are not contingent upon our firm committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For our client accounts maintained in its custody, Schwab generally does not charge separately for custody services but is compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab Institutional also makes available to our firm other products and services that benefit EDMP, Inc. but may not directly benefit our clients' accounts. Many of these products and services may be used to service all or some substantial number of our client accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist us in managing and administering our clients' accounts include software and other technology that

- i. provide access to client account data (such as trade confirmations and account statements);
- ii. facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- iii. provide research, pricing and other market data;
- iv. facilitate payment of our fees from clients' accounts; and
- v. assist with back-office functions, recordkeeping and client reporting.

Schwab Institutional also offers other services intended to help us manage and further develop our business enterprise. These services may include:

- i. compliance, legal and business consulting;
- ii. publications and conferences on practice management and business succession; and
- iii. access to employee benefits providers, human capital consultants and insurance providers.

Schwab may make available, arrange and/or pay third-party vendors for the types of services rendered to EDMP, Inc. Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. Schwab Institutional may also provide other benefits such as educational events or occasional business entertainment of our personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, we may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors we consider and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

Item 13 Review of Accounts

PORTFOLIO MANAGEMENT SERVICES

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: Charles C. Carnevale, CIO; Timothy Loudin, Sr. VP and Julie Carnevale, President.

REPORTS: In addition to the monthly statements and confirmations of transactions that Portfolio Management Services clients receive from their broker-dealer, EDMP, Inc. will provide daily reports summarizing account performance, balances and holdings, on the EDMP, Inc. secure website.

Item 14 Client Referrals and Other Compensation

CLIENT REFERRALS

Our firm may pay referral fees to independent persons or firms ("Solicitors") for introducing clients to us. Whenever we pay a referral fee, we require the Solicitor to provide the prospective client with a copy of this document (our *Firm Brochure*) and a separate disclosure

statement that includes the following information:

- the Solicitor's name and relationship with our firm;
- the fact that the Solicitor is being paid a referral fee;
- the amount of the fee; and
- whether the fee paid to us by the client will be increased above our normal fees in order to compensate the Solicitor.

As a matter of firm practice, the advisory fees paid to us by clients referred by solicitors are not increased as a result of any referral.

It is EDMP, Inc.'s policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm may directly debit advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

In addition to the periodic statements that clients receive directly from their custodians, we also provide account statements directly to our clients on a daily and quarterly basis, via our secure client website. We urge our clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

Our firm does not have actual or constructive custody of client accounts.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with the custodian firm.

Item 17 Voting Client Securities

We vote proxies for all client accounts; however, you always have the right to vote proxies yourself. You can exercise this right by instructing us, or when your account is set up with your broker dealer to not vote proxies in your account.

We will vote proxies in the best interests of our clients and in accordance with our established policies and procedures. Our firm will retain all proxy voting books and records for the requisite period of time, including a copy of each proxy statement received, a record of each vote cast, and a copy of each written client request for information on how the adviser voted proxies.

Clients may obtain a copy of our complete proxy voting policies and procedures by contacting our operations department by telephone, email, or in writing. Clients may request, in writing, information on how proxies for his/her shares were voted. If any client requests a copy of our complete proxy policies and procedures or how we voted proxies for his/her account(s), we will promptly provide such information to the client.

With respect to ERISA accounts, we will vote proxies unless the plan documents specifically reserve the plan sponsor's right to vote proxies. To direct us to vote a proxy in a particular manner, clients should contact our operations department by telephone, email, or in writing.

You can instruct us to vote proxies according to particular criteria (for example, to always vote with management, or to vote for or against a proposal to allow a so-called "poison pill" defense against a possible takeover). These requests must be made in writing.

We will neither advise nor act on behalf of the client in legal proceedings involving companies whose securities are held in the client's account(s), including, but not limited to, the filing of "Proofs of Claim" in class action settlements. On a limited basis, the client may direct the proof of claim to us to gather the necessary data in order to satisfy the claim. If desired, clients may direct us to transmit copies of class action notices to the client or a third party. Upon such direction, we will make commercially reasonable efforts to forward such notices in a timely manner.

Item 18 Financial Information

Under no circumstances do we require or solicit payment of fees in excess of \$1200 per client more than six months in advance of services rendered. Therefore, we are not required

to include a financial statement.

As an advisory firm that maintains discretionary authority for client accounts we are also required to disclose any financial condition that is reasonable likely to impair our ability to meet our contractual obligations. EDMP, Inc. has no additional financial circumstances to report.

EDMP, Inc. has not been the subject of a bankruptcy petition at any time during the past ten years.
